

AHFM

AXEL HEGESIPPE - PAINTER - CATALOGUE 2026

GENESIS

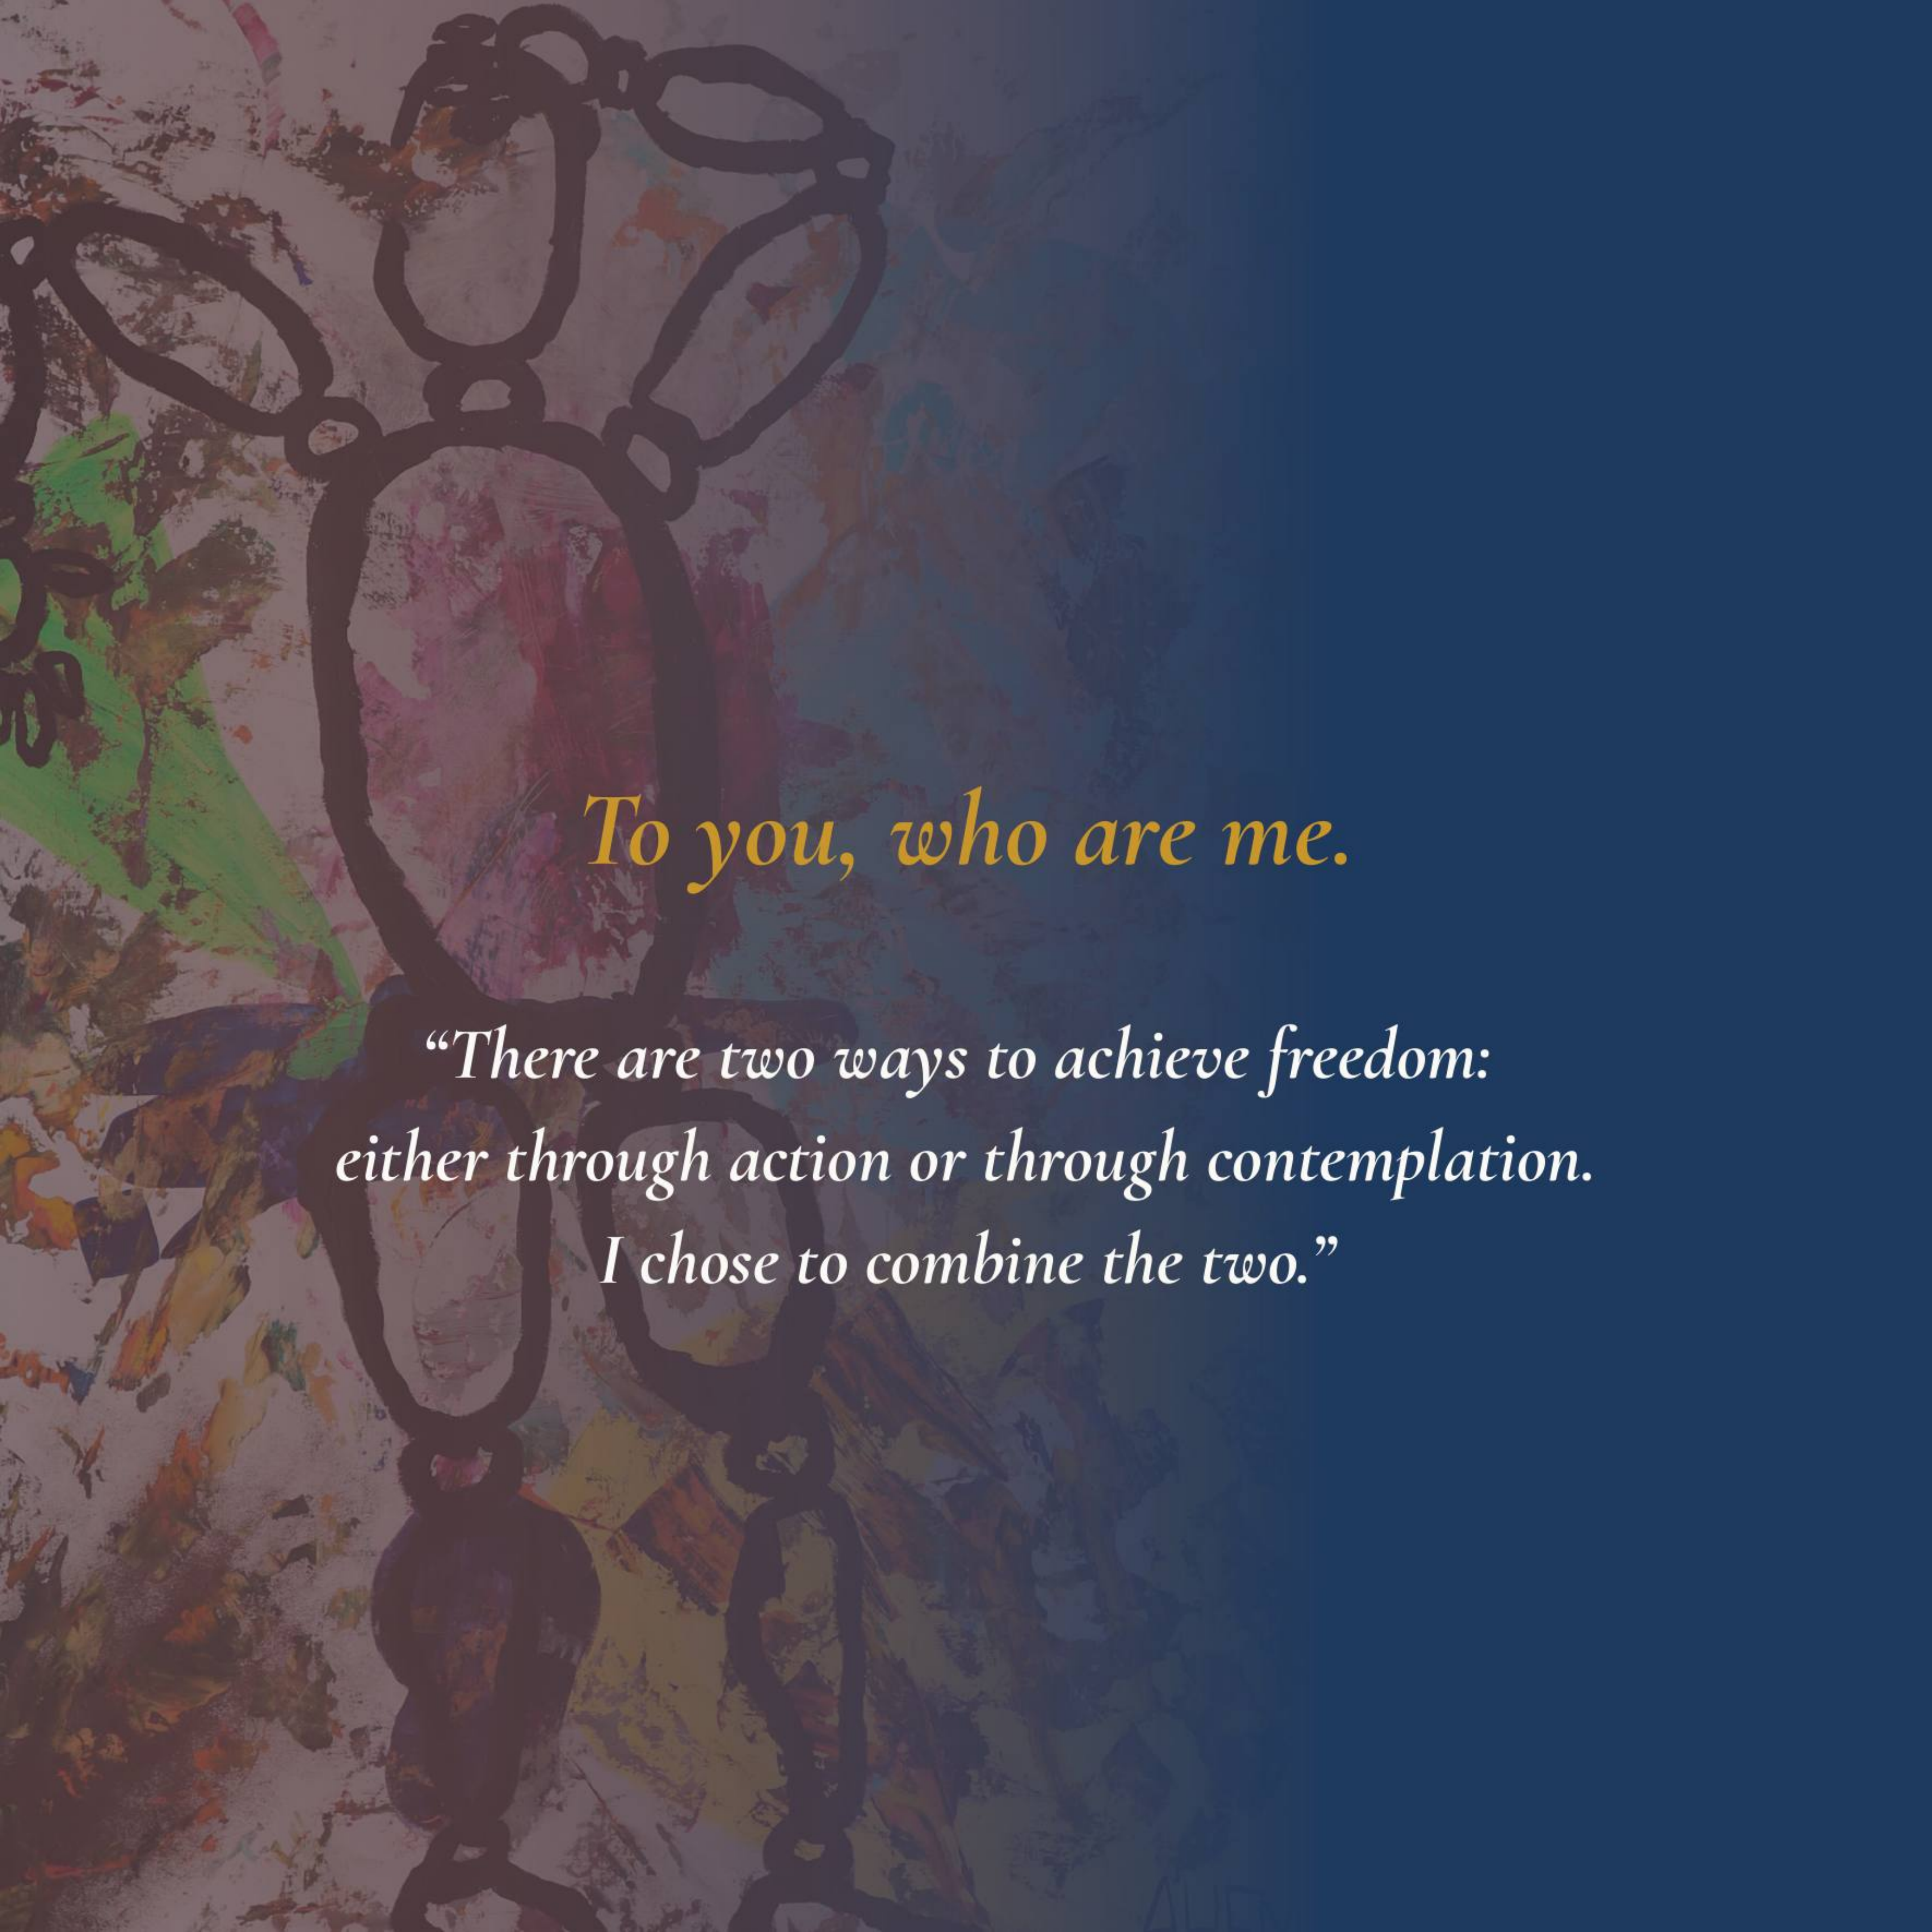

Art is to AHFM what the ocean's perpetual motion is to an island. Through his works, it gives rise to the culmination of a chaotic vertigo between psychic currents and the rigidity of matter — a place where union is created, releasing the secret of life's infinite cycle within the artist's own works. This is why he finds it so difficult to define them: they carry the movement of the permanent evolution of the very person who contemplates them.

It is an art to be contemplated in order to grasp the truth it releases — as one contemplates a landscape of ineffable beauty, itself once shaped and created by the chaos of opposites. The harmony of the Beautiful is then born in whoever knows how to recognize it.

And perhaps that is the artist's only honest promise: that all chaos or disorder is a natural necessity — once crossed, accepted, and observed, its sole destination is joy, love, and Beauty.

ARTISTIC JOURNEY

Born in Guadeloupe in 1996, Axel Hegesippe has lived in Sint Maarten since 2026. He has created under the name AHFM since 2013, and exhibited since 2019. A painter, writer, and creator of audiovisual work, he works across multiple formats in pursuit of the same question: what is born from — and remains of — the tumult of chaos. His process draws from the place of his own incarnation: the Island, between sea and mountain, the slow rhythm of contemplating wonders once born of natural chaos, whose perpetual motion calls at once for anchoring and for letting go — a stripping away, in search of what the island keeps essential, at its heart.

To you, who are me.

*“There are two ways to achieve freedom:
either through action or through contemplation.
I chose to combine the two.”*
